EDUCATION

Intermediate
Bhasyam Junior College

06/2016 - 05/2018

Courses
- 11th to 12th

Engineering
P.B.R Vits

06/2108 - Present

Courses
- Computer Science and Engineering

WORK EXPERIENCE

video creator / editor / volunteer
Sevakalp foundation

07/2020 - 07/2020

A social work group motivated to help, enlighten the local people of Jabalpur.

Achievements/Tasks
- Worked for a month as a video creator and editor.
- Made 4+ videos regarding many events.
- One of the best on their YouTube channel.

SKILLS

Python | Automation | scripting | web scraping | telegram | web development | database | flask | django

PERSONAL PROJECTS

ALL UTILITY BOT (05/2021 - Present)
- This project is aimed to provide an ultimate bot ever made for general use. Users will be able to do many things at one place without having to maintain different bots for different tasks.

PASSWORD GENERATOR (01/2021 - 04/2021)
- This bot will help you generate some **random, strong** *passwords* and *passphrases* as your requested length.

CHAPTER EMBEDDING (01/2021 - 01/2021)
- This mini project was a result of my own curiosity. I wanted the YouTube timestamps features available for offline videos also but when you download videos from YouTube they won't come embedded.

CERTIFICATES

IBM AI Engineering (02/2021 - 03/2021)
IBM AI Engineering by IBM on Coursera. Certificate earned at March 12, 2020

Python For Everybody (12/2020 - 12/2020)
Python for Everybody by University of Michigan on Coursera. Certificate earned at December 27, 2019

ACHIEVEMENTS

5+ projects (01/2021 - Present)
Created 5 utilities (all utility bot, password generator bot, libgenparser python package, chapter embedding utility, my personal website)

Got more than 2k users for all utility bot in a month
Getting users in telegram without prior influence is hard, in such a scenario, i got more than 2 thousand users in a month and growing around 50 to 500 everyday
